## **INSPIRATION**

I have always been passionate about the world of art and creativity since i was a child, so i turned this passion into a job through make-up. I speak four languages, including English, Spanish, French and Portuguese, and through the world of fashion and make-up i feel i can best express myself and what i want to represent. I attended the prestigious make-up Academy Mud studio in Milan, where i specialized in corrective beauty, airbrush, bridal makeup, studio & fashion and hair styling. Getting in tune with the person to be made up is fundamental to create an ad hoc make-up that respects her beauty standards, harmonizing the features and natural tones of her face. Empathy, creativity, innovation, team collaboration and the desire to always learn something new that is inspiring and impactful on my human and professional life path are my philosophy.

## **MY INTERESTS**

Member of the board of directors Young Entrepreneurs group of Confindustria Basilicata; Junior Ambassador, Euroscola, eu ambassador school programme, European Parliament; member of the board of directors Rotaract club of Matera.
